Education

Princeton International School of Mathematics and Science (PRISMS) Princeton, NJ | September 2025 – Present
Relevant Coursework: Differential Equations, Multivariable Calculus, AP Computer Science A, Applied Engineering II, Research Applied Physics, AP Physics C: Mechanics/Electricity and Magnetism, Machine Learning, Linear Algebra, Advanced Robotics, Honors Biology

Stanford Summer Session Stanford, CA | June 2025 – August 2025
Relevant Coursework: CS106A: Programming Methodology, PWR1D: Writing Academic Arguments: The Art of the Essay, ORALCOMM118: Public Speaking: Romancing the Room

BASIS Pflugerville Pflugerville, TX | August 2023 – May 2025
Relevant Coursework: AP Calculus AB/BC, AP Physics 1, AP Computer Science Principles, Honors Physics, Honors Chemistry

Research Projects and Experience

A.J. Drexel Nanomaterials Institute (DNI) Philadelphia, PA | June 2026 – July 2026
High School Summer Lab Intern

- Fabricated interdigitated electrodes for sensors as part of a self-healing wound patch project; learned the processes of spray-coating, screen-printing, and ink-painting to incorporate MXenes for biomedical applications

PRISMSpace-2 Princeton, NJ | December 2025 – Present
Documentation Lead

- Led media outreach and documentation for PRISMSpace-2, a student CubeSat research project studying daisy seed growth in microgravity

Bridging the Quantum Gap: A Robotic Modeling System for Visualizing Decoherence and Qubit Behaviors Princeton, NJ | September 2025 – Present
Research Applied Physics student

- Designed a research project focusing on using swarm robotics to model and simulate single- and multi-qubit interactions. Uses Constructionist learning methodology to create an intuitive learning introduction to quantum computing. Deployed a live simulation through Render (back-end) and GitHub (front-end).

Extracurriculars and Leadership

Engineering Club Princeton, NJ | February 2026 – Present
Member

- Created wood-carvings and a rod puppet using woodworking tools. Explored how fabrication processes influence physical form and human perception.

Schoolhouse.world Remote | August 2025 – Present
Bronze-Level Tutor and Dialogue Club President

- Led Dialogue Clubs and Events to foster peer civil discourse on real-world issues. Tutored 90+ learners for Calculus and SAT Math, logging 40+ hours. Earned a bronze accolade.

PRISMS Toastmasters Princeton, NJ | December 2025 – Present
Speaker, Student Officer, and Toastmasters Coordinator

- Facilitated sessions for students to improve their public speaking skills through peer feedback, speech evaluations, and mentor support.

Chitsabha Kuchipudi Nruthyalaya August 2016 – Present
Senior Student, Teaching Assistant, Mentor

- Practiced and taught Kuchipudi, a South Indian classical dance form, for ten years. Mentored junior students on choreography and narrative context.

PRISMatics/Medium Princeton, NJ | February 2026 – Present
Member and writer

- Authored personal reflections, stories, and essays for PRISMatics, PRISMS' school publication, and Medium

Honors and Skills

- **Honors and Awards:** AP Scholar with Distinction (2024–2026), Positivity Award (January 2026), National Recognition Program: School Recognition Award (August 2025), Stanford Summer Session Certificate of Participation: High School Talent Show (August 2025), Finalist Award: Eighth Place at the UT Arlington Calculus Bowl (February 2025)
- **Languages:** English (Full/Native Proficiency), Telugu (Full/Native Proficiency), Mandarin (Limited Working Proficiency)
